

# Aerial Work Platforms

International Steel & Counterweights

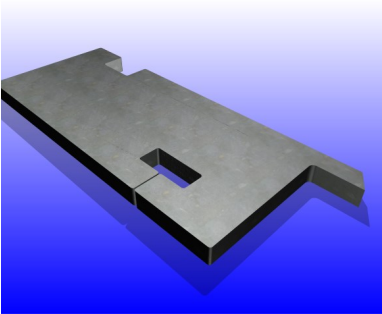

## BUMPERS

Flame cut and with surface finish options to allow you to meet your customers exact requirements

## INSERTS

Low cost steel parts that create the correct ballast and counterweighted options.

## SIDE FRAMES

ISC can handle any requirements, no matter how complex, long or exacting

## THE COUNTERWEIGHT LEADERS

\*Located in Youngstown, OH, International Steel & Counterweights operates on 12 acres and inside of a 300,000 sq. ft. manufacturing facility. We are widely recognized as a leader in supplying steel counterweights, fabrications, weldments and ballast throughout North America.

\*We maintain a strong focus on Aerial Work Platforms, Tele handlers and other material handling equipment.

\*Our unique selling proposition offers high quality steel parts, made from low cost raw material to provide high value finished products for our customers. Our clients have come to expect savings up to 25% when compared to other solutions.

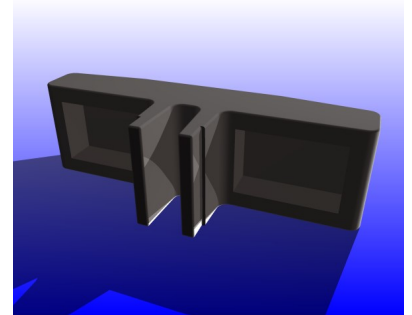

\*Let ISC show you how we can help improve your competitive position with our services.
